

COMPANY PROFILE

About Square Feet

Known for its dynamic pieces full of character and thought, Square Feet prides itself in bringing an ever-growing range of Luxury tiles for your homes and establishments. Over the past decade, the company has four operational stores housing a wide range of world-class Tiles, Sanitaryware, Granites, CP Fittings, Water treatment products, culture stones, and allied wellness products.

Brand by brand, we're joining hands with master artisans, blending modern style with their time-tested techniques. Here's to finding what reflects you, your life and the people you share it with.

Square Feet's success is directly tied to three key elements:

Innovation

We're not restricted by precedent. We're here to challenge the status quo. Boldly. We relentlessly identify opportunity to innovate and grow in every experience, change, and mistake.

Tangible Value

Whether you want to spend a little or a little bit more, we make sure it's just what you want - true value and uncompromised quality.

People, Ideas & Ambition

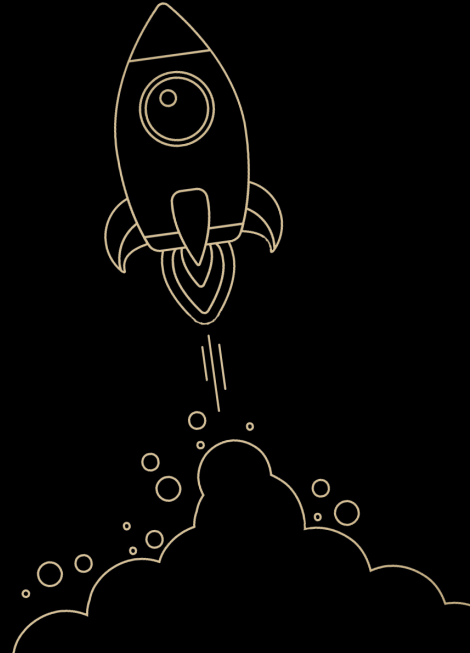

Having fun through the hustle, we're in constant pursuit of doing better - by our clients, by our stakeholders, and by our community. Our existence is a reflection of the collective of individuals - artisans, suppliers, designers and dreamers - who rally across cultures and perspectives to share the products and stories with you!

Vision

To be the most reliable brand in our industry, empowering people to feel right at home with innovative products and services.

Mission

To be among the largest players in Central India with a chain of multi-brand stores offering lifestyle solutions through a wide range of luxury tiles, bathroom installations and other allied products.

Core Values

People Excellence

We lead by raising the bar high, articulating clear targets, and plunging deep. We hire, nurture, and leverage only the best. We constantly reevaluate and strengthen the team to demonstrate excellence. We strive to identify patterns, break them if required – and make decisions based on calculations and critical thought.

Business Excellence

We strive to deliver results with agility – prioritizing the work that drives long-term value. We execute with urgency and nimbly pivot – based on measurable, impactful results. We conduct our business legitimately and ethically, building lasting relations that foster honesty, respect, and trust within the stakeholders involved.

Process Control

In all our stores, we make it easier to explore, educate, evaluate, purchase and get home the best of luxury tiles and more – striving to provide an unforgettable shopping experience. Whether your order is large or small, you can expect to get it fast, on time, and just right. We invest in effective collaboration to maximize the impact in our business relations – with our teammates, stakeholders and suppliers.

Customer Centricity

Everything we do is driven by our willingness to deliver an exceptional customer experience. By focusing on a deeper understanding of our customers and their preferences, we educate and empower them with our bespoke solutions.
